

# 3. SCOT-Symposium

## Practical Course in Cardiology

The following sponsors make  
the symposium possible:

**Medtronic**

Edwards

Daiichi-Sankyo

**HCM diagnostics and management**

**Atrio-ventricular valve interventions -  
Correct patient selection, limits and success**

**ECHO Quiz and exciting ECHO cases**

**Saturday  
28.10.2023  
Technopark Zurich  
8.30-12.35**

The Swiss Cardiologists of Tomorrow (SCOT) is a working group within the Swiss Society of Cardiology (SSC) and is committed to take care of the working conditions and education of cardiologists in training.

The SCOT would like to contribute to the regular training. Therefore, an annual SCOT symposium is planned from 2020. The topics of the SCOT symposium will be relevant to clinical practice and are aimed at cardiologists in training, as well as cardiologists in private practice and senior physicians.

Practical topics will be taught in a state-of-the-art lecture, and the knowledge will be enhanced with clinical cases, live-demonstrations and interactive questions.

#### **Travel:**

**By public transport:** Tram no. 4 to Technopark, walk 2 minutes.

Tram no. 8 / Bus no. 33/72 to Schiffbau, walk 4 minutes

Tram no. 17 to Förrlibuckstrasse, walk 4 minutes
